

# Goals, Strategies & Action Plans of MSDP: Social and Environmental Sustainability Dimension

Khin Ma Ma Myo

Myanmar Development Institute (MDI)

# 12 point Economic Policy of Myanmar

1. Expanding our financial resources through transparent and effective public financial management.
2. Improving the operations of State-owned enterprises and privatising those State-owned enterprises that have the potential to be reformed, while promoting and assisting small and medium enterprises as generators of employment and growth.
3. Fostering the human capital that will be needed for the emergence of a modern developed economy and improving and expanding vocational education and training.
4. Prioritising the rapid development of fundamental economic infrastructure, such as electricity generation, roads and ports, and establishing a data ID card system, a digital government strategy, and an e-government system.

# 12 point Economic Policy of Myanmar

5. Creating employment opportunities for all citizens including those returning from abroad and giving greater priority in the short term to economic enterprises that create many job

opportunities.

6. Establishing an economic model that balances agriculture and industry and supports the holistic development of the agriculture, livestock and industrial sectors, so as to enable rounded development, food security and increased exports.

7. Asserting the right of individuals to freely pursue the economic opportunities they choose, so as to enable private sector growth in line with a market economy system; formulating specific policies to increase foreign investment; and strengthening property rights and the rule of law.

8. Achieving financial stability through a finance system that can support the sustainable long-term development of households, farmers and businesses.

# 12 point Economic Policy of Myanmar

9. Building environmentally sustainable cities, upgrading public services and utilities, expanding public spaces, and making greater efforts to protect and conserve our cultural heritage.

10. Establishing a fair and efficient tax system in order to increase government revenues and protecting individual rights and property rights through enacting laws and regulations.

11. Establishing technical systems and procedures to support intellectual property rights that can encourage innovation and the development of advanced technology.

12. Identifying the changing and developing business environment both in ASEAN and beyond, so as to enable our own businesses to situate themselves to take advantage of potential opportunities.

# Components of M & E Framework

---

ex-ante evaluation conducted prior to the implementation of an initiative in order to analyse the potential costs and benefits, and to assess the value and relevance of the proposed initiative in the context of Myanmar's priorities;

---

annual and mid-term evaluations conducted as part of the implementation cycle used to evaluate the progress and performance of implementation, and to propose adjustments in the design and implementation where necessary;

---

final evaluations conducted immediately after completion used to assess the end results and in the preparation of final reports; and

---

impact evaluations conducted at an appropriate time within three years following the completion of an initiative to assess its efficiency, effectiveness, sustainability and impact against a set of clearly specified and pre-determined targets.

# Challenges
